WHAT IS AUGMEDI?

AUGMEDI is the learning platform for medical students and residents in Switzerland. It brings clinical learning content, examinations, imaging, surgical preparation and exam training together in one place, built for medical school and everyday clinical work.

During the pilot, so you can use the platform yourself and talk about it honestly.

On all products: subscriptions for doctors and students, plus exam preparation.

10%
Discount for your followers
With your personal code. A real benefit for your community.

CHF 150
per collab reel
For creating your content. 3 reels in the pilot, so CHF 450.

What we ask of you

- **3 collab reels** during the pilot, together with our account
- **1 story sequence per reel** with link and code, pointing to the reel
- **Your code in a story highlight**, so it stays easy to find

Usage rights

We may repost the collab content on our channels and use it in ads for **12 months**.

Content and tone stay yours. We give you input on the product, not a finished script.

3 collab reels at CHF 150	**CHF 450.00**

Plus a 3-month free subscription. Commission on the first payment, calculated on the price after the 10% discount. The number is an example, not a promise.

How it works

1 **Intro call**
A short call: your audience, your ideas, our questions.

2 **Agreement**
Terms and process put in writing.

3 **Start**
Access, personal code, first reel.

4 **Review**
After 3 months, we decide together how to continue.

GOOD TO KNOW

- Content with a code or collab is labelled as advertising or a partnership.
- Many hospitals have policies on social media and side income. Please check in advance what applies to you.
- We handle the commission payouts, so you don't need to track anything.
